

Prevent-Connect Email List (listserv) Guidelines

PreventConnect's moderated email list, Prevent-Connect, is a forum to discuss the newest violence against women prevention efforts. The audience for this email group is people and organizations committed to developing, implementing, evaluating, researching and improving the prevention of violence against women.

As a moderated email list, messages are reviewed before being posted. Prevent-Connect Moderators use the following criteria to determine if a message is posted. Moderators do not edit the body of an email (except to add or correct URLs), but may change the subject line for clarity. Any other moderator changes will be marked with "[MODERATOR NOTE:]"

Only members of Prevent-Connect may post messages to the email list. Prevent-Connect uses Yahoo Groups to manage its email list.

If you use the email application's reply option to respond to a different message or create a new thread, make sure to change the subject line to indicate which posting you are responding to.
- **Avoid Attachments.** Since many Prevent-Connect email list members do not receive attachments, keep the key points in the text of the actual messages and avoid sending attachments.
