How to use Zoom + Housekeeping

- Text chat and private chat
  - Please send a private chat message for help.
- PowerPoint Slides
- Polling Questions
- Phone
- Closed Captioning
- Web Conference Guidelines
PreventConnect

- Domestic violence/intimate partner violence
- Sexual violence
- Violence across the lifespan, including child sexual abuse
- Prevent before violence starts
- Connect to other forms of violence and oppression
- Connect to other prevention practitioners
CONNECTING WITH COMMUNITY TO PREVENT SEXUAL & INTIMATE PARTNER VIOLENCE DURING CRISIS:
LESSONS LEARNED FROM MINNESOTA

Tuesday November 16, 2021
11 AM-12:30 PM PT/2 PM-3:30 PM ET

PreventConnect is a national project of ValorUS, formerly known as the California Coalition Against Sexual Assault sponsored by the U.S. Centers for Disease Control and Prevention. The views and information provided in this web conference do not necessarily represent the official views of the U.S. government, CDC or VALOR.
Objectives

- Describe the impacts of community connectedness as protective factor against sexual and intimate partner violence
- Identify the impacts of community connectedness across the socioecological model and as it relates to addressing systemic harms and oppression
- Discuss opportunities for promoting community connectedness to prevent sexual and intimate partner violence, and for new or strengthened partnerships
Community Connectedness
What does community connectedness look like in your own community?

Community-Identified Strategies: Prevention During Times of Compounding Crises
Who We Are
“I'll say this, 2020 lifted up the rug of all the ugliness we've swept under the rug. And it just said, ‘You know what, no more rug. Have all your crap and then not only just have it, we're going to place more crap on top of it.’ And it's really forced organizations and funders to think about how do we do community work.”
How has the COVID-19 pandemic forced your organization to take the rug away, like in the previous example?

Use the Text Chat feature to answer the question.

Strategy 1

Expand the understanding of and approach to "prevention" in order to achieve health equity.
Strategy 2

Center the voices, leadership, and expertise of those most impacted by the conditions that create barriers to health equity; address systemic conditions that propagate disparities.
Strategy 3

Support, amplify, and invest in community-based organizations that meet community need and work toward health equity.
What does it look like to meet community need and work toward health equity (during times of crisis/instability)?

Text Chat Question
Strategy 4

“Pause and pivot” to ensure any adaptations to prevention programming actually meet community need; systems partners need to create and support infrastructures that allow this flexibility.
Strategy 5

Adopt community-connectedness as the foundation of prevention.
Which of the 5 Strategies resonates with you the most? How do you see this strategy being implemented in your organization?

Text Chat Question

1. Expand the understanding of and approach to "prevention" in order to achieve health equity.

2. Center the voices, leadership, and expertise of those most impacted by the conditions that create barriers to health equity; address systemic conditions that propagate disparities.

3. Support, amplify, and invest in community-based organizations that meet community need and work toward health equity.

4. “Pause and pivot" to ensure any adaptations to prevention programming actually meet community need; systems partners need to create and support infrastructures that allow this flexibility.

5. Adopt community-connectedness as the foundation of prevention.
Community Narrative + Prevention Toolkit:
https://www.menaspeacemakers.org/mdhreport

"When we recognize that we are all connected, we accept a deep responsibility for the ways our choices impact everyone around us - for good or for harm."
