Discussion Question

Where should the mobilization to intentionally link sexual violence and intimate partner violence prevention originate from?

Leadership

- Who leads
 - Public Health Departments
 - Coalitions
 - Dual coalitions
 - Community based organizations
- What carries the leadership
 - Vision
 - Values
- How leadership functions
 - Style
 - Skills

Leadership Through Public Health Actions

- Promotes free and open information to the public
- Change social norms
- Implement societal interventions to improve health

Mobilizing Leadership

- *“This understanding might increase support for braided and blended funding streams and additional infrastructure for increased collaboration, which would advance the field as a whole.”*

Mobilizing Leadership

“Professionally we have silos, and we operate in these silos we’ve got to break down. Across the country, people working to prevent child abuse are right across the hall from people working on violence against women, and they don’t work together. As we go into communities to bring everybody to the table, don’t let people say, ‘I work on child abuse, but this is about gang violence.’ Don’t let people say, ‘I work on violence against women, and this is about child abuse.’ This thing, all this violence, is connected.”

-Deborah Prothrow-Stith, MD,
Adjunct Professor, Harvard School of Public Health

Discussion Question

How could thinking differently about funding opportunities break down silos?
