TV: Text Chat Question: How can people support you? And what could be our collective call to action?

JM: Primary prevention starting with children at a young age

VC: Thanks Daniela and Sareen for your kind words. It started raining outside so I had to let the fur babies inside.

KLF: A small call to action: when non-seniors and non-disabled people hear people saying "it only kills old people and people with compromised immune systems", we can take the chance in person or online to quickly at least say "I think elders matter and I value the lives of people living with HIV and disabilities" or whatever is true for you and value-affirming.

ML: Encourage one another that you're not alone in this new normal and self care and connecting with family and loved ones is a priority in order to avoid thinking of the financial hardships some are facing
