How to use Zoom

- ▶ Text chat
- ▶ PowerPoint Slides
- ▶ Polling Questions
- ▶ Phone
- ▶ Closed Captioning
- ▶ Web Conference Guidelines

Have you attended a PreventConnect Web Conference before?

Polling Question

The image shows a light blue background with faint grid lines. In the center, there is a white rectangular area containing three rounded rectangular input fields. The top field has a blue checkmark icon inside a circle, followed by two horizontal lines for text. The middle and bottom fields each have an empty circle icon followed by two horizontal lines for text.

Institutionalizing
LGBTQIA+ Justice in
Sexual and Intimate
Partner Violence
Prevention: **Creating
Opportunities
through a Statewide
Action Plan**

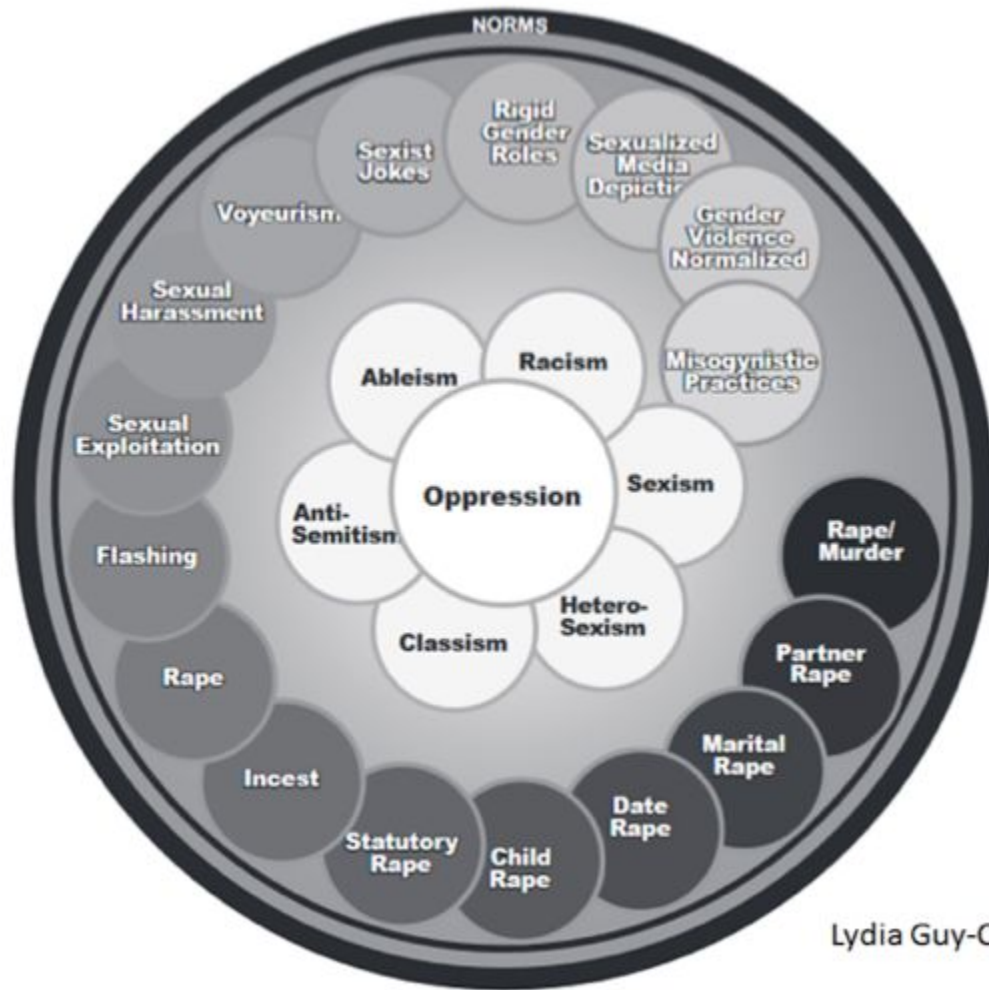

WEDNESDAY, OCTOBER 29, 2024
11 AM PT/2 PM ET

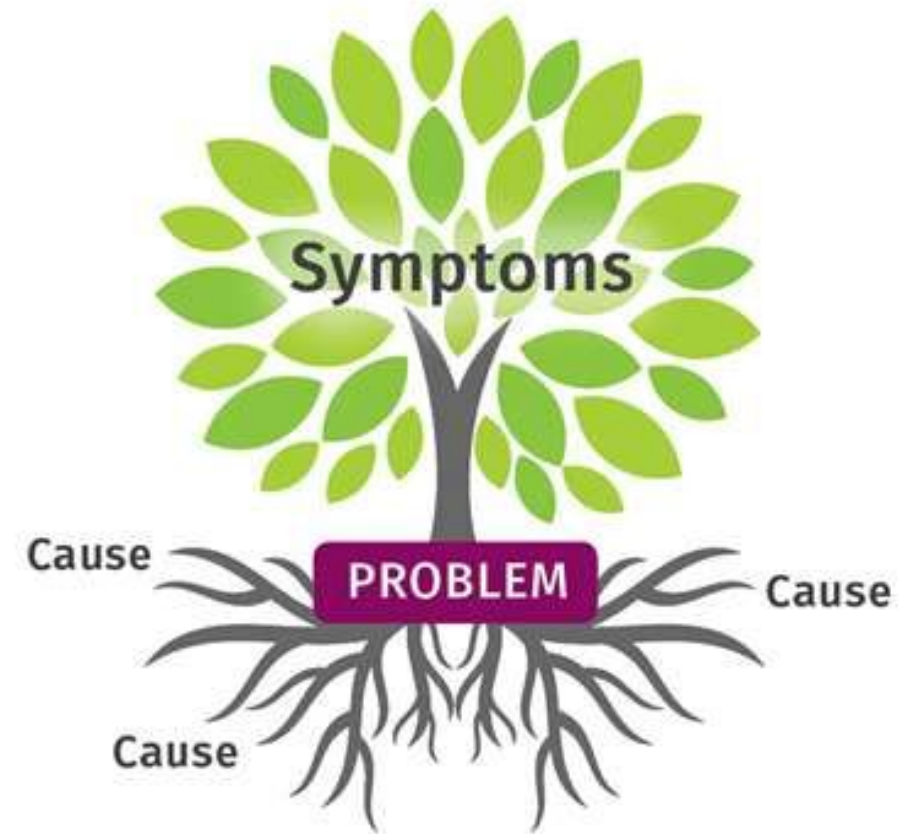

Objectives

- Gain deeper understanding of 2SLGBTQIA+ communities in indigenous and rural areas of the U.S.
- Discuss unique challenges and opportunities in engaging and advocating for queer and trans communities across varying cultural and geographic regions.
- Uplift successful grassroots LGBTQ+ Justice efforts, and identify opportunities for collaboration.

Root Causes and Shared Risk/Protective Factors

Lydia Guy-Ortiz, 2006

Risk and Protective Factors in Sexual and Intimate Partner Violence

Sexual and Intimate partner violence are not caused by a single factor. Instead, a combination of factors at the individual, relationship, community, and societal levels increase and decrease people's likelihood of experiencing or causing harm.

Risk factors increase the likelihood of someone perpetrating or experiencing violence.

Protective decrease the likelihood of someone experiencing or perpetrating violence.

Many forms of violence share risk and protective factors

Shared Risk Factors

- History of experiencing violence
- Witnessing violence
- Unhealthy relationship with parents
- Neighborhood poverty
- Lack of economic opportunities
- Weak social policies/laws

Shared Protective Factors

- Community Support/
Connectedness

BULLYING

SEXUAL
VIOLENCE

SUICIDE

YOUTH
VIOLENCE

TEEN DATING
VIOLENCE

CHILD ABUSE
& NEGLECT

ELDER ABUSE
& NEGLECT

INTIMATE
PARTNER
VIOLENCE

Why 2SLGBTQIA+ support matters

- LGBTQ+ people are as or more likely to experience sexual and intimate partner violence than their cisgender, heterosexual peers.
- Homophobic bullying at a young age is linked to **increased risk in perpetration** of sexual violence in adulthood.
- There are already multiple **individual, relationship, community and societal risk factors** working against the health and wellbeing of 2SLGBTQ+ people.
 - Also creates a roadmap for where the work can start.

I'm enclosed in a space that wants me dead but refuses to kill me, and it is so they can watch me live and die on the edge of society full of rainbow flags and gentrified faggotry.

The Queer South

We define the queer South as the stories and experiences of LGBTQ+ people that have lived in the U.S. South.

The Queer South

WHY YOU SHOULD CARE

The South is home to more LGBTQ+ people than any other region across the U.S. Despite this fact, queer Southerners face some of the most severe forms of violence, including anti-trans legislation, book bans, and disproportionate harm from issues such as sexual violence.

The Queer South

WHAT ARE ZINES

Definition

A zine is a small, self published magazine often connecting communities outside of traditional spaces of power.

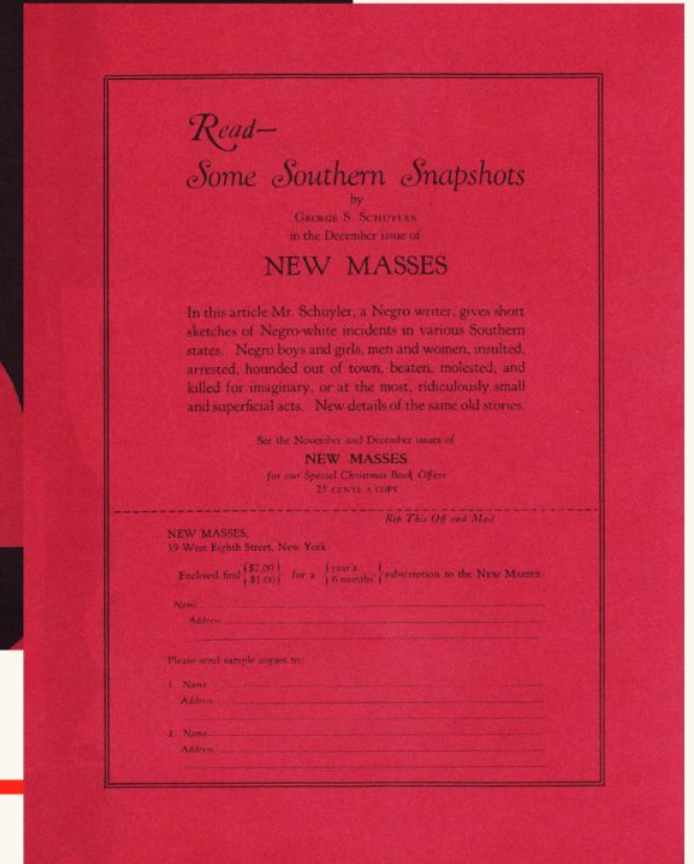

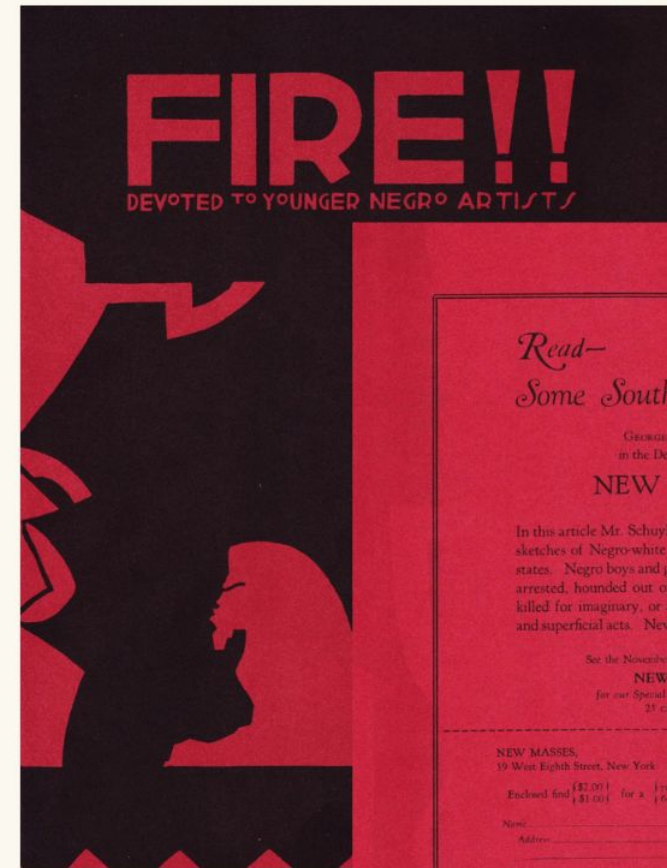

The Queer South

TIMELINE

1900 - 1930

“American zines trace their origins to the amateur press movement of the early 20th century, when amateur printers purchased their own presses in order to produce small works concerning a specific topic or interest.”

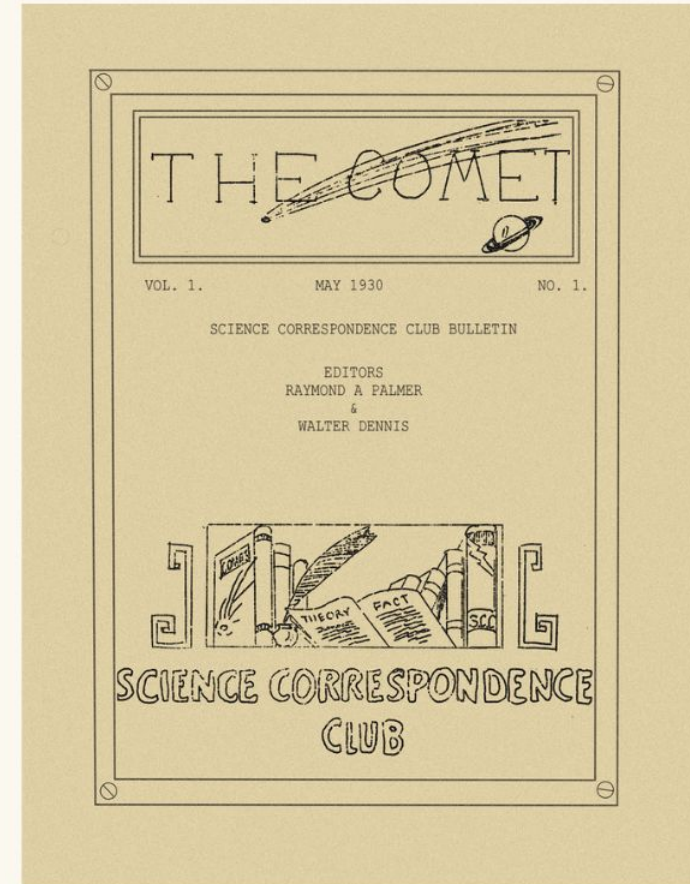

The Queer South

TIMELINE

1930 - 1970

“Zines in their current form largely derive from the fan magazines (shortened to fanzines) of the 1930s.”

The Queer South

TIMELINE

1970 - 1990

“The advent of new technologies, specifically the photocopier, allowed for easy duplication of zines, which were adopted by the punk music scene in the 1970s and 1980s.”

The Queer South

TIMELINE

1990 - Present

“By the 1990s, influenced by the punk movement, the “Riot Grrrl” movement used zines as a way to discuss feminist messages rooted in social consciousness.”

AI was used to develop two of the images above.

The Queer South

HOW ZINES CAN BE SUBVERSIVE

*No Money,
No Problem.*

Self-publishing, largely created by minoritized communities that center intersectional viewpoints, and challenging the system.

The Queer South

HOW WE'RE CREATING CHANGE

- Providing a space to archive queer Southern stories
- Providing resources to rural queer Southerners so the communities we come from are able to make zines of their own
- Using social media and the zine to educate others on what the queer Southern experience can be and the implications of pushing our existence

The Queer South

THANK YOU

we hope to see you around the queer south.
